## A shining diamond of Siberia!

## Introduction

Welcome to Tyumen, the ~~obsolete~~ capital of obsolete Siberian District! Today I offer you a breathtaking trip around our main sights!

## Transport

As it was impossible to establish the underground here, inventors came up with an air subway! This vehicle offers to enjoy fascinating views of skyscrapers and the Green Belt and to reach the suburbs in just fifteen minutes. All these perks turned the air train system into a renowned tourist entertainment!

## The Library Tower

Pictured on every single postcard from Tyumen, the Library Tower presents an outstanding mixture of the modern architecture, Russian culture and advanced technologies. Where people study and work, as a specific integrated software system makes it possible to operate enormous amounts of data within seconds. Tourists can admire a progress of computer sciences, experience all its achievements themselves or just taste some delicious pastry with other citizens in the coffeeshop on the seventh floor.

## The Green Belt

Nowadays it is not surprising that Tyumen dwellers are concerned about ecology. Therefore, the Green Belt, a park, framing the river Tura, has become the "lungs" of the city, providing a place for relaxation, admiring the view of cafes or practising yoga for visitors and residents of Tyumen. What a thrilling opportunity to explore Siberian nature!

## Conclusion

I bet you are already packing your suitcases. Forget about all your doubts: memories of such a trip will never fade!
