We all know, that Russia is one of the greatest places with one of the oldest histories. It takes its origins from ancient Slavic tribes, which integrated with each other and formed a strong country. Today Russia is included into the top of the richest countries, and we would like to tell you more about it.

Russian Federation has really changed in the last 50 years. After solving the "vehicle problem" in 2030th the government made one of the most important decisions in the nation's history. They decided to remove all the obsolete buildings.

10 New houses and apartments were built specially gorgeous, so now every tourist can glance at every building like at the miracle.

One of the most interesting things in modern Russia is its own national software. Every person has an ID-number, which is used in almost any occasion. People get education using this number, they use it at work and everywhere, even in cinemas. It's very convenient for everyone, because now people don't need to have other documents and money.

And you cannot visit modern Russia without trying its kitchen. You can go anywhere - best dishes like "tech-perlovka" will be catered for you by robots.
