Trip to Tyumen

Gr In a past few years Tyumen has changed and became the place where everyone can enjoy their holidays.

Architecture

Gr The most important part of Tyumen is architecture, especially now that obsolete buildings were replaced, city looks more modern than before, while still containing some of great looking buildings from previous centuries and years.

Catering and entertainments

Gr Other important for tourists thing is entertainment and catering, and Tyumen certainly has plenty of those. There are a lot of shopping malls which contain places for eater, rest, and other activities.

Transport

Gr But just as in any other city, Tyumen has some minor issues that maybe uncomfortable, traffic is one of them. While it might be convenient to have your own vehicle with integrated software, it causes a lot of traffic jams. The best solution to this problem is using public transport for your needs.

Work

Gr Nowadays city is continuing its expansion and creates more jobs to keep up with growing population. For example, recently opened IT software company, which is now famous in all world.

In conclusion, I would like to invite people from all countries to visit our great city - Tyumen, because of its various places of interest.
