Tobolsk is a lovely tiny town, beloved by its citizens and tourists alike. Started over 400 years ago, Tobolsk was a slow growing town due to its river, which caused natural disasters, like floods, to occur frequently. In a year 2019 a disaster happened, a deceased animal graveyard was washed down by the river, poisoning it and destroying the only source of clean, fresh water. But in a year 2033, the town finally dealt with the consequences of the flood. Tobolsk began not to recover, but to develop. In 2035 about 36 km of coastline were builded, most popular part is near the Kremlin. Wonderful water, clean seats and happy citizens are gathering around every day. The best part is, you don't have to go to the top of the mountain to reach the city, now smart, software guided vehicles can transport you. They can give you a ride to the new schools which use network to teach students, smart restaurants with integrated catering. You will never regret visiting Tobolsk.
