Witness the development of Russia firsthand!

Introduction.

I would like to present Russia in this entry and tell about the most striking tendencies of our life. I hope you will stay till the end of the article.

Main part.

Russia has changed a lot in the last 50 years. Years ago, there was a huge demand in the food, although, our government has found a solution. Modern chemical fertilizers which are added into the ground help to grow as much products as are required.

By the way, what have you been associating travelling with your entire life? You must have thought of long hours waiting for your flight and thrilling adaption to the climate change. You need to forget about it forthwith! Our new planes with obsolete new vehicles can

~~in seconds~~ in seconds and integrated chips will help to adapt the system of your brain after only 20 minutes of sleep! The software of this gadget is also used in everyday activities. For example, commuters living far from the centre of the city can tackle the problem of boredom in their free time. Don't you agree that pressing on of the buttons on the chip economises time and money? People are used to live in computer reality. Today pupils can study at home as all assignments can be completed distantly. Also the workers have higher paying jobs than in any other country.
