How Tyumen became the most developed city

The start

Tyumen has ~~at~~ always been known for its variety of resources used in many areas like investigations in physics, genetic modifications, modeling of cybersecurity software and other significant areas improved throughout 50 years.

The development of the city began in 2020 when the enhancement catered its peak. Many various factories, universities and other places had opened and the infrastructure of Tyumen was changed in a better way

Affect on people's lives

The strategy of developing Tyumen made by the government was undiscribably affective according to changes in people's lives

New cars that weren't able to pollute the atmosphere had made an obsolete breakthrough in citizens' way of travelling. They use these cars as a frequently as vehicles and the results were expected - people started to travel more in their spare time to more.

Another outstanding improvement is how working places were modified with the computers that are able to help with any appeared mistake. This model was a demo project at first, but then were used all over the world for its productivity. Different modified cases ~~can~~ can please everyone's taste. And also, the educational process increased enormously because of integrated
