Welcome to the old town of Tobolsk

Even though 50 years have passed nothing has changed! We are proud to say that no new technologies have been integrated in our lives and we live exactly the same as 50 years ago.

• Our life. Unlike all of these "modern" cities, Tobolsk seemed to capture the slow pace of life. No one is rushing anywhere, lots of time to relax and forget about the problems of the modern world.

• Our work. A lot of people still use their computers on their jobs and since we haven't done a software upgrade since 2020, most of people <sup>still</sup> use Microsoft Excel 2007 or Paint to work with files.

• Our transport. This is where you can feel the heritage of our town. Most people drive an old Lada Kalina or Toyota Camri. Our streets look just like history book pages! No new vehicle has driven on our streets in decades!

• Our fashion. This part of our tiny town's culture hasn't been so obsolete, because teenagers always want to rebel and you won't see any ripped jeans or high-waisted shoes.

All in all, the old town of Tobolsk never covered new technologies and isn't going to. Tobolsk found its way of living life. Simple and relaxing way. Come to our town if you want to escape the horrors of modern world!
