GUIDEBOOK ENTRY

INTRODUCTION:

Undoubtedly, Russia can be considered as one of the most powerful and prosperous countries in the world. Russian cities are known for their one of a kind beauty, economic success or there are cities that have integrated both qualities. I am going to introduce you the city that I live in - Tyumen.

GENERAL INFORMATION ABOUT TYUMEN:

Tyumen in fact, has started from a relatively small town compared to giants like Moscow and Saint Petersburg. Now it has grown into the successful and popular city that it is, in spite of the humble beginnings. People from all over the world fly to Tyumen to see all the progress it has reached in the last 50 years. The progress is shown and expressed in the new buildings, sights and most importantly, the mentality of the city.

AN INNER LOOK INTO THE CITY:

Tyumen has become an essential city to visit after it launched its first interactive cafe. That place has been called outstanding and worth-visiting by many people from various countries. Its software is a robot that detects any word the customer says. Tyumen is known for an expert when it comes to simplifying things. For example, it is the first city in the world to ever ~~open~~ open a library with a vehicle in it. You say anything and it brings you working instead of a librarian. You say any word and it drives to the books that have the word in it them.

CONCLUSION:

Tyumen is a perfect example of a city where anything is possible — & its story began from being another typical Russian town to a city known worldwide.
