Neotyumen: the city of extraordinary experience!

Brief historical excursion

Rich in its history, Neotyumen was founded in the 16th century in the times of Ivan IV. Undoubtedly, although for many years the city was located rather far from Russia's capital, as the decades went by, its contribution to Europe's prosperous life and development has grown, becoming of increasing significance. Due to the multiple catastrophes and natural disasters most Western European cities turned out to be under water, so Tyumen (as it was called back then) became a new capital, providing safe location, advanced production and entertainment centres.

The lifestyle of free people

The people, who are used to living in Neotyumen, are not surprised by such a free way of life, that includes a varied choice in education systems (some of which can be also integrated with a regular job), as one of the issues. Interestingly, one's salary depends on how other people benefit from what he/she does, that's why sitting in front of a laptop and writing a programme's software for a couple of hours a day can be also well-paid!

Entertainment

Obviously, Neotyumen is a bustling city with numerous kinds of entertainment. Because of the technological revolution, very soon any tourist will be able to visit most of the city's plants and factories and try brand new types of vehicles and electronic devices!

If you're not a die-hard fan of technology, you may find interesting the museum of modern art, called LOOKoil. You can also travel to Neotynan's outskirts, where the main hiking areas ^{and} amusement parks are located.

Conclusion

Why is Neotynan extraordinary? It's different, multi-faceted and challenging!
