Tyumen - the city of future.

• Introduction.

Have you ever heard of Tyumen? - an ex-siberian city? If you're new to exploring Russia, let me introduce you the city of our future and present - Tyumen. SP

• Weather: to be afraid or not to be?

A long time ago Tyumen was just a typical siberian city, but due to the global warming it isn't is no longer like that. You don't need to worry about the weather: ~~has~~ researchers have presented an integrated system, which supports non-aggressive weather. 50

• Places of interest

Well, Tyumen takes pride in our beach, which was opened only this year, is one of the most popular places here. If you're not eager about lying on a soft, white sand, then it's vital to inform you, that at night this beach transforms into a night cinema, 'Riviera'. Loads of films are shown there, also waiters will cater you all evening: popcorn, nachos, starters. 40

Talking about food, don't forget to visit 'Future' - restaurant with a soft-ware system, that replaces the need of people. It means, that you can order any cuisine you want, highly respected robots will cook it for you. 30

• Public transport.

Tourists' favourite transport is a flying bus: extreme fast but totally safe. What is more, there're obsolete, small-size drones, capable of going anywhere. 20

. Conclusion.

All in all, I'd like to add, that our city has solved many significant problems accumulated through years. I'm sure, that Tyumen will live up to your expectations.
