From: Rose Peters, Student

Subject: Analysis of the school museum and recommendations about its using

Date: 16<sup>th</sup> February 2021

Introduction

The school museum provides much useful knowledge. However, it is not used by the students. This report contains analysis of the situation and recommendations to the school authorities.

Description of the museum

The museum exists for a long time. It has become old. However, it does not influence the quality of information in it. It provides much knowledge on literature and history.

Reasons why it is not often used

The old design of the museum does not attract student or any other people. The students visiting the museum do not pay much attention to the objects. They observe them rapidly. Thus, the information in the museum is not used fully. Furthermore, the building is visited rarely. The limitation of visits is usually 30 students a month.

Recommendations

There are several things the school authorities can do to use the museum effectively. An engagement with a design company should be made. Its employees can renew the building. Thus, more people would want to visit it. Interesting events should take place there. They would attract and educate students. However, the number of these events should not ~~output~~ <sup>be</sup> 3 times a week. Otherwise, students might get distracted from their lessons. The events should also be available to the public.

- enhance

GR style

Len - 1w

style

Conclusion

All in all, the potential of the museum is not used fully. The school authorities should renovate the building and start organising events there.
