To: Mr. White, Headmaster

From: Rosy Brown, Student

Subject: school museum resources

Date: 16.02.2020

Introduction

After examination of our school museum, it has become clear that the exhibitions need improvement. The students' interest in the museum has been declining ~~too~~ rapidly. Some measures to solve this problem are presented below.

Literature

lex. ⁵⁰ The museum owns a library, but it is allowed only to watch it. Therefore, only a few people visit it. Such limitation should be dismissed. If ~~also~~ permitted, borrowing the books will increase educational opportunities of students and, hence, their interest.

Prizes

Apart from books, the museum has ~~a~~ numerous rewards of former students. Their achievements should be advertised more since practically no one knows about them. This will encourage pupils to be more labourious. 100 SP.

Sculptures and Paintings

PK3 Some output should be made in the art section of the museum for not everyone enjoys science literature. Students might find it unamusing to get access to the art works. SP.

Technology

Accepting that contemporary education requires using cutting-edge technologies, *негативные выводы*

the museum also needs development in this sphere. Interactive exhibitions should be provided. Presentations might be shown. * Simple halls with ~~few~~^{various} objects and much information written near ^{them} ~~to~~ seem obsolete by current standards.

Conclusion

Considering all mentioned above, one ²⁰⁰ can understand that the museum should be improved by providing access to every visitor. Thus, engagement ^{might} should be increased. If some measures, to enhance the museum status, ~~are taken~~, pupils will use its resources wisely.
_{are taken}
