29 x 0,5 = 14,5

14,5 correct

40 - 11 = 29 / 2 = 14,5

School museum situation

Introduction.

As I am confident you as school authorities ~~are~~ know, our school ~~contains~~ ^{has} a relatively large museum in it. However, despite it having a lot of useful information, as well as few valuable relics of the past, it is not widely used by the students. The aim of this report is to give explanations to this situation, and provide possible recommendations to improve it.

The current state of school museum.

Our museum has a room dedicated to World War II, a small observatory, and even a hall of minerals and stones — enough to provoke interest in every student of our school. Moreover, there are themed meetings ^{monthly} held in its main room. Despite this, the museum is not popular among the students, due to two reasons. ~~One of them~~ ^{One of them} is the limitation of access to it. The museum building is ^{partly} closed most of the time, so even students who want to do research in it simply cannot do it. Moreover, the ~~popularity~~ ^{popularity} of easily-accessible ^{educational and} Internet resources is increasing rapidly. The pupils simply use them instead of the school museum, since it does not have everything for the ^{research}.

Possible improvements.

Obviously, the engagement of the students into ~~the museum~~ ^{using the museum} can be partly provided by changing its working hours. Additionally, a simple and free navigational ^{digital} application ~~can be created to~~ ^{can be created to} ~~work~~ with a fast information output can be created to expand ~~the~~ young people's possibilities ^{while} in the museum. These measures ~~are~~ should involve more students into doing their research in the ^{museum}.

Conclusion.

Overall, it can be said that the situation with our museum needs ~~to~~ to change. The ways to do it are easily ~~done~~ and ~~are~~ rather simple.
