12 *Yakov*

st

Good day,

st

My classmates and I have noticed that our school museum isn't used fully by the students. We think it's a huge problem that should be solved as soon as possible and we want to help with it.

st

First of all, let's talk about the museum itself. It contains a lot of useful for students' education objects, which almost noone uses, but it has no place for us to use the museum resources or to rest after a hard work.

st

I've just mentioned one of the ~~reasons~~ reasons why it's not used effectively and it's time for the other ones. Breaks between classes are too short: students have time only to rapidly move from the one classroom to another. Also, museum is closed when the classes end, so there is no opportunity to get there.

gr

Now, we're going to give you some recommendations about how to improve this situation. School museum should become more comfortable for students: you should place there sofas, tables, chairs and other facilities, so students would enjoy being and working there.

gr

The museum should be opened until the evening for students who want to continue their education even after the last class with no limitations. Also, you should think about making one of the breaks twice longer to have enough to spend at least ten minutes in the museum.

gr

To conclude, ~~our school museum~~ if we do it right, our school museum might become a great place for our students. We hope that our recommendations will help you to make that place better.
