Introduction

The aim of this report is to analyse the situation in our school museum and suggest recommendations to tackle the problems.

Description of the school museum

The museum is situated in the second floor of the main school building. It has a perfect location and everyone has an access to it. There are plentiful historical objects and innumerable number of useful information.

Issues

The main issue of our museum is lack of engagement by our students. According to statistics, 50 per cent of pupils are not interested in exhibitions of our museum. The other problem is a limitation of place for such facility - there is simply no place for extra paintings and magnum opuses by local artists.

Recommendations

There are some suggestions which could help to deal with above-mentioned issues. It is vital to change our splendid exhibitions rapidly, by doing that, it gives an opportunity to be caught in the public eye of our students with diverse interests. Also, the authorities can provide us the bigger building to use it as a school museum. It allows to improve the output of the museum and attract more public. Finally, it is essential to have a coherence between the teachers and our museum, by having lessons in this facility. It will enhance the level of education among students and broaden their horizons.

Conclusion

In conclusion, if the school authorities used the above-mentioned pieces of advice, our museum would be a splendid facility for everyone.
