Report

• Introduction

The aims of this report are to analyze why our school museum statistics have fallen rapidly and give recommendations on how to solve this problem.

• ~~Visit the museum~~ the museum itself

Our school museum owns over 150 pieces of art such as vases, paintings, unique books and one of the things that the museum takes pride the most is jewellery of Princess Mary, who visited our town right after her engagement back to 1995. The museum is 10 metres long and has 3 sections, each has a special periodization.

• Revealing the truth about ~~the museum~~ the insides

The questionnaire made among students showed that only 10 percent of pupils attended the museum. It can be explained by the limitation of working time established by the museum. Also, the reason of not using the museum fully might be covered in fact that it's not looked after enough. Dirty glasses around the items, footprints on the floor are not the things that motivate students to come back.

• Recommendations.

Firstly, we should get rid of time limitations, so that students would have an everyday access to the museum. Secondly, school authorities should pay more attention to museum condition - provide a specialist, who would take care of items which can be achieved by donations from students. Thirdly, teachers should make open classes in the museum to enhance pupils' interest to this place.

• Conclusion.

A911-27-3

GR \* All in all, the <sup>23</sup> output of paying more attention  
to the museum is positive. <sup>24</sup> Our team hopes, that  
given recommendations will help in developing <sup>25</sup> our  
museum.
