y. M. M. M. M.

Introduction: this report is aimed to provide some recommendations to increase public access to the school museum.

Description: the accommodation of the school museum is appropriate for such an establishment: it is spacious and light. The museum has many stalls with books on different topics, magazines and objects. It is also equipped with modern electronic devices: computers, tablets and interactive boards. So, the museum has all the facilities to do homework and just communicate with the classmates.

Explanations: our museum is not used by a substantial percentage of students for several reasons. First of all, most of the people are not simply informed about the opportunity to study there. It is believed to be old-fashioned and unhelpful for education. Additionally, the majority of pupils consider the museum to have a lack of the necessary information. So, they find the limitation of the resources inconvenient.

Recommendations: in order to increase the popularity of our museum some changes have to be done.

Some lessons are ~~required~~ to be held in the school museum. The students should also be asked to do various researches and projects with the help of the school museum.

Conclusion: all points considered, the school museum has great chances to develop rapidly. It only needs to be introduced to the students correctly and they will be stimulated to work there.
