12

12 Measure

The purpose of my report is to express my concern about the school museum which is not used effectively by the students. Here are some problems my classmates and I have discovered and some solutions we offer.

There is no doubt that school museum is full of interesting facts and objects. But as far as I am concerned, the number of students who use school museum rapidly decreased. Moreover, none of the teachers use the museum resources during lessons. As such, the museum is opened only two days in a week. The output of this situation can be worse than we can imagine - the museum might be closed.

On the other hand, the museum has a big potential. My classmates and I would like to make an engagement with the museum authorities to get a permission to use museum resources for the new modern exhibitions which would include computer techniques to attract students. Also the teachers can use the museum resources to increase student's curiosity.

To sum up, I would like to say that the main reason of the museum's renovation is to give students an opportunity to pick up new skills and knowledge in an interesting way.
