Dear Sir / Madam,

I am writing this report to inform you about the unfortunate situation with our school museum. Recently we have noticed that it is not being used effectively.

At first, I would like to tell you about our museum. As you may know it has a large amount of important information and interesting objects, including valuable historical information and objects that can only be found in specific areas.

The first issue we have discovered is that access to the museum is limited to students of the school. By removing this limitation, we will be able to rapidly increase the amount of people visiting the museum.

Another issue is that the museum is not used during lessons and research projects, to ~~raise~~ <sup>improve</sup> students' engagement with our museum. We recommend making the use of museum mandatory for subjects like history and biology, as well as implementing a system of rewards to students for visiting the museum.

These are my main recommendations on how to enhance the output of the museum. I highly recommend you implement as many of them as possible and take our opinion into consideration as it will greatly help our school.

Yours truly,
